Explore the hills, ridges, sand dunes, and breathtaking views of the Great Lake State, one trail at a time Michigan's Lower Peninsula offers extremely diverse terrain, from beaches that are home to shipwrecks and lighthouses, streams populated with trout, and wildflower and orchid fields to spaces with unusual geological formations, sand dunes, and steep climbs, and beech forests perfect for birding. Each chapter begins with an overview of each hike—the type of hike, total distance, time, difficulty, highlights, maps, and trailhead GPS coordinates. Readers will learn the best way to access the trail, tips and suggestions, and key features to look out for along the way (scenic views, drinking water, rest stops, waterfalls, and old growth trees). Whether readers are setting out in the Sleeping Bear region to observe shipwrecks, open dunes, and beach walking on the South Manitou Island trail, 50 Hikes in Michigan (with 10 bonus hikes!) is the perfect companion. The bible for Michigan canoists has been updated and revised! Includes all new maps and up-to-date data and descriptions for 45 blue-ribbon Michigan rivers. The wealth of canoeing adventures ranges from placid family floats to blood-curdling whitewater runs.

Locating original landowners in maps has never been an easy task-until now. This volume in the Family Maps series contains newly created maps of original landowners (patent maps) in what is now Manistee County, Michigan, gleaned from the indexes of the U.S. Bureau of Land Management. But it offers much more than that. For each township in the county, there are two additional maps accompanying the patent map: a road map and a map showing waterways, railroads, and both modern and many historical city-centers and cemeteries. Included are indexes to help you locate what you are looking for, whether you know a person's name, a last name, a place-name, or a cemetery. The combination of maps and indexes are designed to aid researchers of American history or genealogy to explore frontier neighborhoods, examine family migrations, locate hard-to-find cemeteries and towns, as well as locate land based on legal descriptions found in old documents or deeds. The patent-maps are essentially plat maps but instead of depicting owners for a particular year, these maps show original landowners, no matter when the transfer from the federal government was completed. Dates of patents typically begin near the time of statehood and run into the early 1900s. What's Mapped in this book (that you'll not likely find elsewhere) . . . 2488 Parcels of Land (with original landowner names and patent-dates labeled in the relevant map) 20 Cemeteries plus . . . Roads, and existing Rivers, Creeks, Streams, Railroads, and Small-towns (including some historical), etc. What YEARS are these maps for? Here are the counts for parcels of land mapped, by the decade in which the corresponding land patents were issued:

Decade	Parcel-count
1840s	7
1850s	696
1860s	714
1870s	715
1880s	215
1890s	43
1900s	32
1910s	58
1920s	8
