**Site Reliability Engineering** May 11 2022 The overwhelming majority of a software system's lifespan is spent in use, not in design or implementation. So, why does conventional wisdom insist that software engineers focus primarily on the design and development of large-scale computing systems? In this collection of essays and articles, key members of Google's Site Reliability Team explain how and why their commitment to the entire lifecycle has enabled the company to successfully build, deploy, monitor, and maintain some of the largest software systems in the world. You'll learn the principles and practices that enable Google engineers to make systems more scalable, reliable, and efficient—lessons directly applicable to your organization. This book is divided into four sections:

Introduction—Learn what site reliability engineering is and why it differs from conventional IT industry practices  
Principles—Examine the patterns, behaviors, and areas of concern that influence the work of a site reliability engineer (SRE)  
Practices—Understand the theory and practice of an SRE’s day-to-day work: building and operating large distributed computing systems  
Management—Explore Google's best practices for training, communication, and meetings that your organization can use

**Service Navigation** May 31 2021 This exciting new book is the first of its kind to offer an analysis of Service Navigation and provide a framework for understanding the role and its application across a range of fields of practice. With an emphasis on the participation of individuals in their own care, it directly addresses the recent changes in policy and service development in health and human services, including the introduction of the National Disability Insurance Scheme. Developed by a team of experts at one of Australia's leading universities, this unique

text helps social workers, nurses, and allied health workers navigate the various systems that the service user has to use to become responsible for managing their own care arrangements and to help them to achieve their desired goals.
