Fools and idiots? Aug 14 2022 This is the first book devoted to the cultural history in the pre-modern period of people we now describe as having learning disabilities. Using an interdisciplinary approach, including historical semantics, medicine, natural philosophy and law, it considers a neglected field of social and medical history and makes an original contribution to the problem of a shifting concept such as 'idiocy'. Medieval physicians, lawyers and the schoolmen of the emerging universities wrote the texts which shaped medieval definitions of intellectual ability and its counterpart, disability. In studying such texts, which form part of our contemporary scientific and cultural heritage, we gain a better understanding of which people were considered to be intellectually disabled and how their participation and inclusion in society differed from the situation today.

Idiots Nov 17 2022 INTERNATIONAL BESTSELLER A fresh, hilarious, and relatable collection of essays about everything from motherhood and marriage to sobriety and work-life balance (or imbalance) from the nationally bestselling author of the “honest, complicated” (SheKnows) *Idiot*. TRIGGER WARNING: TORN EVERYTHING! In her first book, *Idiot*, bestselling author Laura Clery gave us mind-blowingly personal life stories about addiction, toxic relationships, and recovery—establishing herself as the preeminent voice of infinite conviction meets zero impulse control. Here she is two kids later asking, “How did we get here?” Sex. Sex is how we got here. Laura’s life has changed a great deal since she wrote *Idiot*, but her hilarious candor has only increased with motherhood—plus she tells some of the stories she was too scared to tell in her first book (which is really saying something). In *Idiots*, Laura shares more than anyone ever asked for about: -Mucus plugs, vacuum extraction, and adult diapers -Dousing doulas, VagTime, and pelvic organ prolapse -Vaginismus, laxative overdose, and accidental lactivism -Placenta pills, mom brain, and vibrator manifestation -Nipple-twisting orgies and flinging a butt burrito in your doctor’s face -ADHD, autism, postpartum depression, and the wisdom of a ninety-eight-year-old sage named Anne -Unsolicited dick, sexual assault, and sister-drugging - Stephen’s cheating, Laura’s cheating, fights, and forgiveness -Choosing love over fear and healing the world Laura does not hold back when it comes to sharing stories of screw-ups, triumphs, and learning from her mistakes. Whether she’s crying into a diaper in a Whole Foods parking lot or desperately soliciting advice from a random elderly stranger (who has most certainly considered a restraining order), Laura is able to laugh at herself even during her worst moments—more important, she makes us laugh, cry, and feel less alone in the world.

Everyone's an Idiot Apr 17 2020 Do you think everyone's an idiot? Have you ever thought that you might be, too? Are you tired of getting in your own way? Do others have too much power over you? Is it finally time to stem the tide of foolishness in your life? If you live every day and think to yourself that everyone's an idiot, it's time you found out why. In this down to earth piece, author Cameron Danalis uses research in tandem with life experience to create a compelling argument that everyone's an idiot, discuss how to combat this in your life, and guide you to break the cycle. If you're realizing that the behaviors exhibited by most people, including yourself, are idiotic and self-destructive: this book was written for you. So many people understand that the way they choose to live is detrimental to themselves, but don't know how to do anything about it. Some people just can't bring themselves to take that first step. This book solves those

problems and challenges you to begin that journey, using the lessons from the unorthodox life of the author that he had to learn the hard way. If you're stuck in a rut, looking for a way out, or just ready to make a change, then don't be an idiot. Let Danalis' wild yet relatable life lessons guide you in the right direction in *Everyone's An Idiot*.

Digest of the Laws of the State of New York Jun 19 2020

Icons and Idiots Mar 17 2020 When Bob Lutz retired from General Motors in 2010, after an unparalleled forty-seven-year career in the auto industry, he was one of the most respected leaders in American business. He had survived all kinds of managers over those decades: tough and timid, analytical and irrational, charismatic and antisocial, and some who seemed to shift frequently among all those traits. His experiences made him an expert on leadership, every bit as much as he was an expert on cars and trucks. Now Lutz is revealing the leaders—good, bad, and ugly—who made the strongest impression on him throughout his career. *Icons and Idiots* is a collection of shocking and often hilarious true stories and the lessons Lutz drew from them. From enduring the sadism of a Marine Corps drill instructor, to working with a washed-up alcoholic, to taking over the reins from a convicted felon, he reflects on the complexities of all-too-human leaders. No textbook or business school course can fully capture their idiosyncrasies, foibles and weaknesses – which can make or break companies in the real world. Lutz shows that we can learn just as much from the most stubborn, stupid, and corrupt leaders as we can from the inspiring geniuses. He offers fascinating profiles of icons and idiots such as... Eberhard von Kuenheim. The famed CEO of BMW was an aristocrat-cum-street fighter who ruled with secrecy, fear, and deft maneuvering. Harold A. “Red” Poling: A Ford CEO and the ultimate bean counter. If it couldn't be quantified, he didn't want to know about it. Lee Iacocca: The legendary Chrysler CEO appeared to be brilliant and bold, but was often vulnerable and insecure behind the scenes. G. Richard “Rick” Wagoner: The perfect peacetime CEO whose superior intelligence couldn't save GM from steep decline and a government bailout. As Lutz writes: We'll examine bosses who were profane, insensitive, totally politically incorrect, and who “appropriated” insignificant items from hotels or the company. We'll visit the mind of a leader who did little but sit in his office. We'll look at another boss who could analyze a highly complex profit-and-loss statement or a balance sheet at a glance, yet who, at times, failed to grasp the simplest financial mechanisms—how things actually worked in practice to create the numbers in the real world. The result is a powerful and entertaining guide for any aspiring leader.

A Theory of Jerks and Other Philosophical Misadventures Jul 13 2022 A collection of quirky, entertaining, and reader-friendly short pieces on philosophical topics that range from a theory of jerks to the ethics of ethicists. Have you ever wondered about why some people are jerks? Asked whether your driverless car should kill you so that others may live? Found a robot adorable? Considered the ethics of professional ethicists? Reflected on the philosophy of hair? In this engaging, entertaining, and enlightening book, Eric Schwitzgebel turns a philosopher's eye on these and other burning questions. In a series of quirky and accessible short pieces that cover a mind-boggling variety of philosophical topics, Schwitzgebel offers incisive takes on matters both small (the consciousness of garden snails) and large (time, space, and causation). A common theme might be the ragged edge of the human intellect, where moral or philosophical reflection begins to turn against itself, lost among doubts and improbable conclusions. The history of philosophy is humbling when we see how badly wrong previous thinkers have been, despite their intellectual skills and confidence. (See, for example, “Kant on Killing Bastards, Masturbation, Organ Donation, Homosexuality, Tyrants, Wives, and Servants.”) Some of the texts resist thematic categorization—thoughts on the philosophical implications of dreidels, the diminishing offensiveness of the most profane profanity, and fatherly optimism—but are no less interesting. Schwitzgebel has selected these pieces from the more than one thousand that have appeared since 2006 in various publications and on his popular blog, *The Splintered Mind*, revising and updating them for this book. Philosophy has never been this much fun.

The Idiot May 31 2021 A New York Times Book Review Notable Book • Finalist for the Pulitzer Prize for Fiction • Longlisted for the Women's Prize for Fiction “Easily the funniest book I’ve read this year.” —GQ “Masterly funny debut novel . . . Erudite but never pretentious, *The Idiot* will make you crave more books by Batuman.” —Sloane Crosley, *Vanity Fair* A portrait of the artist as a young woman. A novel about not just discovering but inventing oneself. The year is 1995, and email is new. Selin, the daughter of Turkish immigrants, arrives for her freshman year at Harvard. She signs up for classes in subjects she has never heard of, befriends her charismatic and worldly Serbian classmate, Svetlana, and, almost by accident, begins corresponding with Ivan, an older mathematics student from Hungary. Selin may have barely spoken to Ivan, but with each email they exchange, the act of writing seems to take on new and increasingly mysterious meanings. At the end of the school year, Ivan goes to Budapest for the summer, and Selin heads to the Hungarian countryside, to teach English in a program run by one of Ivan's friends. On the way, she spends two weeks visiting Paris with Svetlana. Selin's summer in Europe does not resonate with anything she has previously heard about the typical experiences of American college students, or indeed of any other kinds of people. For Selin, this is a journey further inside herself: a coming to grips with the ineffable and exhilarating confusion of first love, and with the growing consciousness that she is doomed to become a writer. With superlative emotional and intellectual sensitivity, mordant wit, and pitch-perfect style, Batuman dramatizes the uncertainty of life on the cusp of adulthood. Her prose is a rare and inimitable combination of tenderness and wisdom; its logic as natural and inscrutable as that of memory itself. *The Idiot* is a heroic yet self-effacing reckoning with the terror and joy of becoming a person in a world that is as intoxicating as it is disquieting. Batuman's fiction is unguarded against both life's affronts and its beauty--and has at its command the complete range of thinking and feeling which they entail. Named one of the best books of the year by Refinery29 • Mashable One • Elle Magazine • The New York Times • Bookpage • Vogue • NPR • Buzzfeed • The Millions

Idiot America Nov 05 2021 NATIONAL BESTSELLER The three Great Premises of *Idiot America*: · Any theory is valid if it sells books, soaks up ratings, or otherwise moves units · Anything can be true if someone says it loudly enough · Fact is that which enough people believe. Truth is determined by how fervently they believe it With his trademark wit and insight, veteran journalist Charles Pierce delivers a gut-wrenching, side-splitting lament about the glorification of ignorance in the United States. Pierce asks how a country founded on intellectual curiosity has somehow deteriorated into a nation of simpletons more apt to vote for an American Idol contestant than a presidential candidate. But his thunderous denunciation is also a secret call to action, as he hopes that somehow, being intelligent will stop being a stigma, and that pinheads will once again be pitied, not celebrated. Erudite and razor-sharp, *Idiot America* is at once an invigorating history lesson, a cutting cultural critique, and a bullish appeal to our smarter selves.

Arguing with Idiots Jan 19 2023 FUNNY. FRIGHTENING. TRUE. It happens to all of us: You're minding your own business, when some idiot informs you that guns are evil, the Prius will save the planet, or the rich have to finally start paying their fair share of taxes. Just go away! you think to yourself -- but they only become more obnoxious. Your heart rate quickens. You start to sweat. You can't get away. Your only hope is... ..this book. Glenn Beck, author of the #1 New York Times bestsellers *An Inconvenient Book* and *Glenn Beck's Common Sense*, has stumbled upon the secret formula to winning arguments against people with big mouths but small minds: knowing the facts. And this book is full of them. The next time your Idiot Friends tell you how gun control prevents gun violence, you'll tell them all about England's handgun ban (see page 53). When they tell you that we should copy the UK's health-care system, you'll recount the horrifying facts you read on page 244. And the next time an idiot tells you that vegetable prices will skyrocket without illegal workers, you'll stop saying "no, they won't" and you'll start saying, "actually, eliminating all illegal labor will cause us to spend just \$8 a year more on produce." (See page 139.) Idiots can't be identified through voting records, they can be found only by looking for people who hide behind stereotypes, embrace partisanship, and believe that bumper sticker slogans are a substitute for common sense. If you know someone who fits the bill, then *Arguing with Idiots* will help you silence them once and for all with the ultimate weapon: the truth.
