Information Systems, Management, Organization and Control Mar 29 2021 This book explores the diversity of topics, views and perspectives focused on the relationship between information systems, organizations and managerial control. It brings together theories and practices by a diverse group of scholars working in different disciplines: organization, management, accounting, information systems development, human-computer interaction. The volume is divided into three sections, each one focusing on a specific theme: organizational change, innovation and information and communication technologies; organizational control, accounting and information systems; information, knowledge and project management practices. The book is based on a selection of the best research papers - original double blind peer reviewed contributions of the annual conference of the Italian chapter of AIS, held in Milan, Italy in December 2013.

Smart Society May 19 2020 Increasingly, we hear of 'smart' cities, communities, governance and people as constituting the basis of initiatives by which we might address various social and environmental problems, particularly those connected with sustainability, usually by means of an 'intelligent' connection with the 'network society'. This book addresses the issues raised by the emergence of 'smart' dimensions and initiatives in society, critically engaging with questions surrounding the feasibility of what smart initiatives propose and the extent to which they can really offer solutions to the challenges we face. With attention to the notion of 'smart' as applied to the individual, the community, politics and the home, the authors consider the interconnections between these various facets of 'smart living' and their relationship to the notion of the smart society as a whole. Drawing on a concrete study of an attempt to concretize smart ideas

in the design of a smart, solar home as part of an international project, Smart Society offers the first extended sociological engagement with the notion of smart living.

Proceedings of the 11th Toulon-Verona International Conference on Quality in Services Sep 15 2022 The Toulon-Verona Conference was founded in 1998 by prof. Claudio Baccarani of the University of Verona, Italy, and prof. Michel Weill of the University of Toulon, France. It has been organized each year in a different place in Europe in cooperation with a host university (Toulon 1998, Verona 1999, Derby 2000, Mons 2001, Lisbon 2002, Oviedo 2003, Toulon 2004, Palermo 2005, Paisley 2006, Thessaloniki 2007, Florence, 2008). Originally focusing on higher education institutions, the research themes have over the years been extended to the health sector, local government, tourism, logistics, banking services. Around a hundred delegates from about twenty different countries participate each year and nearly one thousand research papers have been published over the last ten years, making of the conference one of the major events in the field of quality in services.

Handbook of Research on Applying Emerging Technologies Across Multiple Disciplines Jul 01 2021 In recent decades, there has been a groundbreaking evolution in technology. Every year, technology not only advances, but it also spreads throughout industries. Many fields such as law, education, business, engineering, and more have adopted these advanced technologies into their toolset. These technologies have a vastly different effect ranging from these different industries. The Handbook of Research on Applying Emerging Technologies Across Multiple Disciplines examines how technologies impact many different areas of knowledge. This book combines a solid theoretical approach with many practical applications of new technologies within many disciplines. Covering topics such as computer-supported collaborative learning, machine learning algorithms, and blockchain, this text is essential for technologists, IT specialists, programmers, computer scientists, engineers, managers, administrators, academicians, students, policymakers, and researchers.

Concilier flexibilité du travail et cohésion sociale Dec 14 2019 Ce volume bilingue pose la question des effets des réformes institutionnelles et organisationnelles du marché du travail sur la cohésion sociale. Dans cet ouvrage, le Conseil de l'Europe recherche la conciliation entre ce qui est inévitablement imposé par la mondialisation, c'est-à-dire la réorganisation des paramètres de la concurrence, et la cohésion sociale. La conciliation doit prendre en compte une valeur politique essentielle, la sécurité démocratique, qui se trouve d'abord dans l'emploi : le coût social et sociétal élevé de la précarité le confirme. Néanmoins, sécurité ne signifie pas rigidité et doit se traduire plutôt par la reconnaissance sociale d'un "droit à la transition" qui appelle à la coresponsabilité de tous les acteurs sociaux. La conciliation est plus qu'un devoir politique : elle est le prix de la stabilité qui assure la durabilité sociale.

Architectural Research Addressing Societal Challenges Volume 1 Sep 03 2021 The EAAE/ARCC International Conference, held under the aegis of the EAAE (European Association for Architectural Education) and of the ARCC (Architectural Research Centers Consortium), is a conference organized every other year, in collaboration with one of the member schools / universities of those associations, alternatively in North America or in Europe. The EAAE/ARCC Conferences began at the North Carolina State University College of Design, Raleigh with a conference on Research in Design Education (1998); followed by conferences in Paris (2000), Montreal (2002), Dublin (2004), Philadelphia (2006), Copenhagen (2008), Washington (2010), Milan (2012) and Honolulu (2014). The conference discussions focus on research experiences in the field of architecture and architectural education, providing a critical forum for the dissemination and engagement of current ideas from around the world.

Contrôle de gestion sociale Aug 22 2020 Les rapports des hommes avec le travail, les choix d'organisation et les relations professionnelles ont subi de profondes transformations. Ces mutations

exigent de nouvelles formes de pilotage et de contrôle. Cet ouvrage propose une méthode, une démarche, des outils et des indicateurs issus du terrain ou de travaux plus fondamentaux, associant les responsables des ressources humaines et les services financiers ou de contrôle. Il réunit des solutions applicables à l'ensemble des nouvelles problématiques de gestion des hommes et de leurs performances, depuis le pilotage des effectifs, des rémunérations et de la masse salariale, la réalisation et le suivi des budgets de frais de personnel jusqu'au développement des résultats socio-économiques. La nouvelle édition proposera la mise à jour de données ainsi que l'actualisation de cas pratiques.

A Journey in Social and Environmental Accounting, Accountability and Society Jul 13 2022 For those interested in scientific and practical debate about social, environmental and sustainable accountability, the present volume provides such a discussion at the international level, considering the different typologies of companies. There is one common factor between the gas and oil sectors, waste management, and the economy of communion enterprises: they must all be legitimated in a sustainable modern world in order for us to find a new paradigm and give the world the best chance of survival. The contributors to this volume started to discuss these topics during the 7th Italian CSEAR conference held in Urbino, Italy, in 2018 and have continued the debate here, in order to answer necessary questions which will help prevent further environmental destruction.

Social, Economic, and Political Perspectives on Public Health Policy-Making Jan 07 2022 Presently, the healthcare industry is grappling with many challenges both nationally and globally, including escalating costs, a move to a preventative care environment and a technology savvy patient with high expectations. To accommodate the changing health demands of the current global population, public healthcare policy must undergo a critical analysis. *Social, Economic, and Political Perspectives on Public Health Policy-Making* provides an extensive and rich compilation of research on the role of public policy in the healthcare sector and how policy reform will impact the future of healthcare delivery and administration. This research-based publication is composed of chapters from various international experts in the healthcare sector, focusing on the areas of healthcare access, quality, and value in the 21st century. Government agencies, policymakers, healthcare professionals, hospital administrators, and graduate-level students studying within the fields of government and healthcare administration will find this publication to be an essential resource.

Corporate Management in a Knowledge-Based Economy May 11 2022 *Corporate Management in a Knowledge-Based Economy* traces the evolution of corporate governance over time, with a particular focus on the changing nature of power. The control of scarce resources used in production materials, labour and capital has evolved considerably over the past centuries, with government, landowners, non-owner managers, and institutional investors acting as controlling powers at different points in time. In order to appropriately protect the various, and changing, stakeholders, the system of corporate governance has also developed over the years a process that continues to the present. In today's knowledge-based economy, with the rising importance of intangible assets, a new corporate management paradigm is needed. This book incorporates theoretical work as well as practical applications to analyse these developments and explore emerging trends of the 21st century. It examines how the pursuit of profit maximization has resulted in governance failures and it focuses on the prospective role of business ethics (once again in the spotlight following the credit crisis) in helping reform flawed governance structures. It argues that, in the long term, a system based on ethics can maximize social responsibility, customer satisfaction, human capital development and economic targets.

With *How to Say "Fabulous!" in 8 Different Languages*, you'll always know how to speak the native tongue!

French Management Jul 21 2020 This fascinating book is an account of management in the contemporary

French business world. The formal nature of work relations and the rituals of French business life are analyzed and set against the role of senior executives, and the book looks at the corporate culture of four leading, but very different companies * Michelin * L'Air Liquide * L'Oreal * Carrefour. Also included is an examination of general management attitudes to labour relations, and the book includes an overview of the distinctive features of French management, future trends, and the changes that further European integration may or may not bring.

The Routledge Handbook of Responsible Investment Apr 29 2021 The UN-supported Principles for Responsible Investment initiative has led to around a third of the world's financial assets being managed with a commitment to invest in a way that considers environmental, social or governance (ESG) criteria. The responsible investment trend has increased dramatically since the global financial crisis, yet understanding of this field remains at an early stage. This handbook provides an atlas of current practice in the field of responsible investment. With a large global team of expert contributors, the book explores the impact of responsible investment on key financial actors ranging from mainstream asset managers to religious organizations. Offering students and researchers a comprehensive introduction to current scholarship and international structures in the expanding discipline of responsible investment, this handbook is vital reading across the fields of finance, economics and accounting.

Social Responsibility Education Across Europe Dec 26 2020 This book provides a comprehensive and multi-faceted analysis of the current state of social-responsibility education in various European countries. It explores the different approaches toward CSR education across Europe by identifying each country's current practices and university courses, and by revealing the effect of these methods on future generations of leaders. Using a quantitative research methodology, the book presents comparisons of the current nature and implications of CSR education in a sample of 10 business schools from Germany, Greece, Hungary, Italy, Latvia, Poland, the Netherlands, Portugal, Spain and Turkey.

The Future International Manager Nov 05 2021 An in-depth look at the desired professional profile of new international managers in different aspects of business. It examines the qualities an international manager needs to possess, including commitment to environmental sustainability, sensitivity toward gender and diversity issues and an engagement in progressive entrepreneurship.

Handbook of Research on Management of Cultural Products: E-Relationship Marketing and Accessibility Perspectives Oct 04 2021 An integrated approach to investigate, create, and propose a model for the value creation of cultural products is essential in maintaining its connection with e-relationship marketing; this examination is important in recognizing a common perspective. The *Handbook of Research on Management of Cultural Products: E-Relationship Marketing and Accessibility Perspectives* examines the potential value of cultural products and how the support of new technologies can enable non-conventional and social-media marketing relationships. This book aims to highlight an emerging subject area in the field of financial management, management of value creation, and marketing that will be essential for scientists, researchers, and practitioners.

Knowledge Management et Web 2.0 : Outils, méthodes et applications May 31 2021 Les sociétés accumulent un volume considérable de connaissances techniques, environnementales, sociales, économiques et fiscales. Elles doivent rester pertinentes dans l'organisation et l'exploitation de cette masse d'information, et également apprendre à collaborer avec les outils de Knowledge Management. Cet ouvrage présente une démarche originale de mise en œuvre d'un système de management des connaissances qui comprend : - l'intégration d'infrastructures et l'utilisation des ressources externes ou internes, - les architectures fonctionnelles et techniques, - les technologies du Web 2.0, - les modes de gestion des connaissances et des métadonnées, - le modèle de traitement adapté, - la circulation des flux de connaissance. Cette évolution des usages nécessite la mise en place de nouveaux modes de management dans l'entreprise afin de préparer, conduire, expliquer les actions et définir les axes stratégiques. Le but étant ici de mettre en place un système efficace de gestion des connaissances évoluant vers des offres de services applicables à toute forme d'organisation : le Knowledge Management.

New Models of Governance and Health System Integration Jan 27 2021

Corporate Sustainability Dec 18 2022 This book introduces readers to the main types of corporate sustainability practices. The first section examines both the ratings provided by international agencies and

the various ESG (Environmental, Social and Government) indexes existing at 2021. In turn, the second part empirically investigates the relationship between the level of corporate sustainability and corporate financial performance among the large companies listed on the Milan Exchange FTSE-MIB 40 index for 2015-2019. The book offers a comprehensive overview of current sustainability concepts and practices and illustrates how various companies are seeking to integrate them in their competitive strategy. Further, it fills a gap in the extant literature by analysing the origins, historical evolution and structure of the main rating agencies and ESG indexes. In addition, the empirical analysis of corporate sustainability's impact on companies' financial performance reveals the importance of collegial leadership – a commonly found feature of Italian family businesses that has not been considered in previous studies – as a moderating factor for reconciling sustainability initiatives and performance at family-run firms.

Dark Sides of Business and Higher Education Management, Volume I Mar 17 2020 Contemporary management studies usually focus on positive and desirable solutions that increase the organizational effectiveness and performance. As a result, graduates of higher business schools are totally unaware of the risk associated with management misconduct that often results in corrupt scandals, erosion of public trust to their organizations, or even the collapse of profitable corporations. The last decade, in fact, has been abundant in numerous examples of corruption scandals in modern organizations and instances of management misconduct that have eroded public faith (such as Enron, WorldCom, Tyco, Adelphia, Arthur Andersen, and Parmalat). Due to repeated misconducts and a highly active dark side, scholars started paying more attention to the so-called "dark side" of organizations, as something no longer exceptional to organizational life. This book attempts to shed light on the reality of challenges for business practices and higher education management that stem from misconduct occurring in various aspects of business and educational environment.

Social Capital and Sport Governance in Europe Mar 09 2022 Although there is significant interest in the social role of sport in fostering civil society from both policymakers and academics, there is a lack of evidence of the specific role of sport federations in this system. This book critically presents the mechanisms and structures in a selection of sport federations within a variety of European countries that illuminate the varied relationships between not-for-profit sport federations, their members, governments and the citizens they represent. The contributors explore the contrasts and synergies between core social capital theoretical perspectives, and how these may be informed by and/or shape the realities of governance from different perspectives within the sport system.

A Social Laboratory for Modern France Apr 17 2020 As a nineteenth-century think tank that sought answers to France's pressing "social question," the Musée Social reached across political lines to forge a reformist alliance founded on an optimistic faith in social science. In *A Social Laboratory for Modern France* Janet R. Horne presents the story of this institution, offering a nuanced explanation of how, despite centuries of deep ideological division, the French came to agree on the basic premises of their welfare state. Horne explains how Musée founders believed—and convinced others to believe—that the Third Republic would carry out the social mission of the French Revolution and create a new social contract for modern France, one based on the rights of citizenship and that assumed collective responsibility for the victims of social change. Challenging the persistent notion of the Third Republic as the stagnant backwater of European social reform, Horne instead depicts the intellectually sophisticated and progressive political culture of a generation that laid the groundwork for the rise of a hybrid welfare system, characterized by a partnership between private agencies and government. With a focus on the cultural origins of turn-of-the-century thought—including religion, republicanism, liberalism, solidarism, and early sociology—*A Social Laboratory for Modern France* demonstrates how French reformers grappled with social problems that are still of the utmost relevance today and how they initiated a process that gave the welfare state the task of achieving social cohesion within an industrializing republic.

Penser le management en action sociale et médico-sociale - 3e éd. Feb 08 2022 Tenant à la fois de l'essai et du manuel, l'ouvrage associe réflexions conceptuelles sur le management des organisations, propositions méthodologiques et exemples de terrain pour répondre aux diverses préoccupations du dirigeant d'un établissement, service ou dispositif, qu'il s'agisse de positionner son service, de maîtriser l'activité au meilleur coût, de lancer des projets, d'animer une équipe de direction et de cadres, de

mobiliser et former ses personnels, d'assurer un climat positif, ou de définir une organisation et des fonctions. La préoccupation de l'auteur est plurielle : renoncer au transfert pur et simple de recettes provenant de l'univers industriel tout en s'en inspirant, remettre en cause la « sociale attitude » qui entretient une culture de l'exception dangereusement coupée des réalités sociales et économiques de l'environnement d'aujourd'hui.

Architectural Research Addressing Societal Challenges Sep 22 2020 The escalating interdependency of nations drives global geopolitics to shift ever more quickly. Societies seem unable to control any change that affects their cities, whether positively or negatively. Challenges are global, but solutions need to be implemented locally. How can architectural research contribute to the future of our changing society? How has it contributed in the past? The theme of the 10th EAAE/ARCC International Conference, "Architectural Research Addressing Societal Challenges", was set to address these questions. This book, *Architectural Research Addressing Societal Challenges*, includes reviewed papers presented in June 2016, at the 10th EAAE/ARCC International Conference, which was held at the facilities of the Faculty of Architecture of the University of Lisbon. The papers have been further divided into the following five sub-themes: a Changing Society; In Transit – Global Migration; Renaturalization of the City; Emerging Fields of Architectural Practice; and Research on Architectural Education. The EAAE/ARCC International Conference, held under the aegis of the EAAE and of the ARCC, is a conference organized every other year, in collaboration with one of the member schools/ universities of those associations, alternatively in North America or in Europe.

Oxford Textbook of Palliative Social Work Jan 15 2020 This text is the definitive resource for practicing palliative social work clinicians. It is designed to meet the needs of professionals who seek to provide culturally sensitive biopsychosocial-spiritual care for patients and families living with life-threatening illness.

Scenari e competenze per il manager sociale. Manuale di servizio sociale specialistico Feb 20 2023 1130.1.6

Social Management Jan 19 2023 This book presents a new governance framework for socially oriented business management. It offers a detailed and comprehensive analysis of socially oriented business and its key stakeholders, and introduces a managerial model that is both sustainable in the long term and effective. The book first provides an overview of these organizations and compares the most common managerial systems. It then introduces the concept of Corporate Social Responsibility, and explains the fundamentals for action by and within the business. Based on this framework, it develops an integrated approach for the management of the socially oriented enterprise and explains the interplay between the central drivers for this management model and how to put the model into practice. The book is a valuable resource for graduate and advanced undergraduate courses in sustainable management.

Manuel de direction en action sociale et médico-sociale - 2e éd. Feb 25 2021 Un véritable basculement générationnel est sur le point de s'opérer dans la direction des associations, des établissements et services sociaux et médico-sociaux. Une génération part à la retraite, une nouvelle génération de dirigeants va prendre sa succession et devoir se hisser à un niveau de complexité de gestion des structures peut-être jamais égalé. Elle le fera d'autant mieux qu'elle aura pris la mesure des enjeux inédits de direction et de gouvernance de ces structures, qu'elle les aura pensés et qu'elle se sera appropriés les outils, les méthodologies et les techniques adéquats, c'est-à-dire respectueux de l'altérité du secteur à but non lucratif. Le projet de cet ouvrage est l'identification et la mise en oeuvre des fondamentaux des nouvelles pratiques de direction et de gouvernance en action sociale et médicosociale. Ont été réunies dans un souci d'opérationnalité intelligente et exigeante les contributions de fins connaisseurs de ce qui se joue aujourd'hui dans le champ de l'action sociale. Dans la majorité des cas, il a été demandé à chaque auteur d'approfondir une réflexion dans laquelle il s'est déjà fortement investi dans des écrits antérieurs.

Research Anthology on Developing Socially Responsible Businesses Nov 12 2019 In today's world of global change, it has never been more critical for businesses to adapt their strategies, management styles, and policies to match that of the surrounding environment. Consumers are increasingly becoming more aware of the impact that businesses and product consumption have on environmental health. Thus, businesses have had to alter their production workflows to better suit a more environmentally conscious customer base. As society faces numerous issues related to the environment, health, poverty, and social

justice, the need for socially responsible businesses is crucial to develop and improve the overall landscape of the business field. The Research Anthology on Developing Socially Responsible Businesses discusses the best practices, challenges, opportunities, and benefits of creating socially responsible businesses and provides a context of why these business models are needed. This essential text also considers how society has changed over time and how businesses must adjust their ideals and practices in order to survive in a changing world. Covering a range of topics such as accountability, environmental issues, and human rights, this major reference work is ideal for business owners, managers, policymakers, academicians, researchers, scholars, practitioners, instructors, and students.

Empowering Organizations through Corporate Social Responsibility Nov 17 2022 The impact of businesses on a country's economy extends beyond just the monetary effects of the company. The ethical standard to which a business upholds itself can have a crucial impact on the development of a country's economy.

Empowering Organizations through Corporate Social Responsibility addresses the implementation of businesses' ethical standards in both emerging and advanced economies, interpreting the social impact of this issue in a global context. Highlighting case studies, interdisciplinary perspectives, and strategies in business management, this book is a pivotal reference source for academics, researchers, post-graduate students, and professionals concerned with the development of the business sector.

Modernization and Accountability in the Social Economy Sector Apr 10 2022 The social economy sector (SES) faces pressures for greater accountability to their funders, users, and citizens, and a growing need to report good practices in the social, economic, and financial impact that they have on the community.

However, these entities often face difficulties related to the lack of an accounting framework that allows them to properly disseminate the results of their activities. Thus, practices that involve financial reporting and an assessment of their social, economic, and financial impact are needed to improve their accountability, sustainability, and operational performance. Modernization and Accountability in the Social Economy Sector is an essential reference source that discusses future avenues of development for the management of SES entities, accounting, control in SES management, and measures of performance in the SES. Featuring research on topics such as online communication, social accounting, and value reporting, this book is ideal for managers, financial consultants, academicians, researchers, and students interested in accounting, management, internal control, auditing, and technology use in the SES.

Cooperative Enterprises in Australia and Italy Oct 12 2019 This book arises from a three-year comparative research program concerning co-operative enterprises in Australia and Italy. The book explores the historical development, legal framework and the peak organisations of co-operatives in the two countries. Specific comparative chapters focus on consumer, credit, and worker-producer co-operatives. The book deepens the analysis of co-operatives by containing chapters that examine specific theoretical and empirical issues such as the theory of co-operative firms as collective entrepreneurial action. Monographic chapters include more in depth analysis of specific typologies of co-operatives, such as social and community oriented co-operatives, some of which were created to contrast organized crime in Southern Italy. The book concludes with an assessment of the implications of the project for public policy.
