Behavioral Finance: The Second Generation Mar 15 2022 Behavioral finance presented in this book is the second-generation of behavioral finance. The first generation, starting in the early 1980s, largely accepted standard finance's notion of people's wants as "rational" wants—restricted to the utilitarian benefits of high returns and low risk. That first generation commonly described people as "irrational"—succumbing to cognitive and emotional errors and misled on their way to their rational wants. The second generation describes people as normal. It begins by acknowledging the full range of people's normal wants and their benefits—utilitarian, expressive, and emotional—distinguishes normal wants from errors, and offers guidance on using shortcuts and avoiding errors

on the way to satisfying normal wants. People's normal wants include financial security, nurturing children and families, gaining high social status, and staying true to values. People's normal wants, even more than their cognitive and emotional shortcuts and errors, underlie answers to important questions of finance, including saving and spending, portfolio construction, asset pricing, and market efficiency.

CFA Level III Core Content Summary Jul 27 2020 This is world's shortest CFA Level III core content summary. Despite its length of only 129 pages, the book covers all the core LOS's at CFA Level III, Study Session 3 through 17. (Not included: ethics, AMC, and GIPS). More important, the content has been benchmarked to ensure that its breadth and level of details are adequate for the exam. The following materials were used to benchmark the book's content: a) 2005-2008 actual CFA Level III exam morning session problems, b) CFAI mock afternoon exam, c) Boston mock exam, d) 6 full length Schweser practice exams, e) all problems (concept checkers and self-tests) in Schweser Notes, and f) all problems (concept checkers and case studies) of Schweser 16-week on-line sessions. In addition, to suit the unique essay question format, the book extensively uses phrases and short sentences that can be directly used in the exam. This means less writing during the exam. In short, it is the most efficient review book for the CFA Level III exam.

Come from Away Jan 13 2022 From the bestselling author of *Tides of Honour* and *Promises to Keep* comes a poignant novel about a young couple caught on opposite sides of the Second World War. In the fall of 1939, Grace Baker's three brothers, sharp and proud in their uniforms, board Canadian ships headed for a faraway war. Grace stays behind, tending to the homefront and the general store that helps keep her small Nova Scotian community running. The war, everyone says, will be over before it starts. But three years later, the fighting rages on and rumours swirl about "wolf packs" of German U-Boats lurking in the deep waters along the shores of East Jeddore, a stone's throw from Grace's window. As the harsh realities of war come closer to home, Grace buries herself in her work at the store. Then, one day, a handsome stranger ventures into the store. He claims to be a trapper come from away, and as Grace gets to know him, she becomes enamoured by his gentle smile and thoughtful ways. But after several weeks, she discovers that Rudi, her mysterious visitor, is not the lonely outsider he appears to be. He is someone else entirely—someone not to be trusted. When a shocking truth about her family forces Grace to question everything she has so strongly believed, she realizes that she and Rudi have more in common than she had thought. And if Grace is to have a chance at love, she must not only choose a side, but take a stand. *Come from Away* is a mesmerizing story of love, shifting allegiances, and second chances, set against the tumultuous years of the Second World War.

Women in Microbiology Sep 09 2021 Many girls want to become scientists when they grow up, just like many boys do. But for these girls, the struggle to do what they love and to be treated with respect has been much harder because of the discrimination and bias in our society. In *Women in Microbiology*, we meet women who, despite these obstacles and against tough odds, have become

scientific leaders and revered mentors. The women profiled in this collection range from historic figures like Alice Catherine Evans and Ruth Ella Moore to modern heroes like Michele Swanson and Katrina Forest. What binds all of these remarkable women are a passion for their work, a zest for life, a warm devotion to mentoring others—especially younger women—and a sense of justice and fairness that they are willing to fight tirelessly to obtain. Each story is unique, but each woman featured in *Women in Microbiology* has done so much to expand our knowledge of the natural world while also making it easier for the next generation of scientists to work collaboratively and in an atmosphere where people are judged by their intellect, imagination, skill, and commitment to service regardless of gender or race. *Women in Microbiology* is a wonderful collection of stories that will inspire everyone, but especially young women and men who are wondering how to find their way in the working world. Some of the names are familiar and some are lesser known, but all of the stories arouse a sense of excitement, driven by tales of new, important scientific insights, stories of overcoming adversity and breaking boundaries, and the inclusion of personal tips and advice from successful careers. These stories are proof that a person can live a balanced and passionate life in science that is rich and rewarding.

How Learning Works Nov 11 2021 Praise for How Learning Works "How Learning Works is the perfect title for this excellent book. Drawing upon new research in psychology, education, and cognitive science, the authors have demystified a complex topic into clear explanations of seven powerful learning principles. Full of great ideas and practical suggestions, all based on solid research evidence, this book is essential reading for instructors at all levels who wish to improve their students' learning." —Barbara Gross Davis, assistant vice chancellor for educational development, University of California, Berkeley, and author, *Tools for Teaching* "This book is a must-read for every instructor, new or experienced. Although I have been teaching for almost thirty years, as I read this book I found myself resonating with many of its ideas, and I discovered new ways of thinking about teaching." —Eugenia T. Paulus, professor of chemistry, North Hennepin Community College, and 2008 U.S. Community Colleges Professor of the Year from The Carnegie Foundation for the Advancement of Teaching and the Council for Advancement and Support of Education "Thank you Carnegie Mellon for making accessible what has previously been inaccessible to those of us who are not learning scientists. Your focus on the essence of learning combined with concrete examples of the daily challenges of teaching and clear tactical strategies for faculty to consider is a welcome work. I will recommend this book to all my colleagues." —Catherine M. Casserly, senior partner, The Carnegie Foundation for the Advancement of Teaching "As you read about each of the seven basic learning principles in this book, you will find advice that is grounded in learning theory, based on research evidence, relevant to college teaching, and easy to understand. The authors have extensive knowledge and experience in applying the science of learning to college teaching, and they graciously share it with you in this organized and readable book." —From the Foreword by Richard E. Mayer, professor of psychology, University of California, Santa Barbara; coauthor, *e-Learning and the Science of Instruction*; and author, *Multimedia Learning*

Alternative Investments: A Primer for Investment Professionals Mar 03 2021 *Alternative Investments: A Primer for Investment Professionals* provides an overview of alternative investments for institutional asset allocators and other overseers of portfolios containing both traditional and alternative assets. It is designed for those with substantial experience regarding traditional investments in stocks and bonds but limited familiarity regarding alternative assets, alternative strategies, and alternative portfolio management. The primer categorizes alternative assets into four groups: hedge funds, real assets, private equity, and structured products/derivatives. Real assets include vacant land, farmland, timber, infrastructure, intellectual property, commodities, and private real estate. For

each group, the primer provides essential information about the characteristics, challenges, and purposes of these institutional-quality alternative assets in the context of a well-diversified institutional portfolio. Other topics addressed by this primer include tail risk, due diligence of the investment process and operations, measurement and management of risks and returns, setting return expectations, and portfolio construction. The primer concludes with a chapter on the case for investing in alternatives.

A Comprehensive Guide to Exchange-Traded Funds (ETFs) Apr 16 2022 Exchange-traded funds (ETFs) have become in their 25-year history one of the fastest growing segments of the investment management business. These funds provide liquid access to virtually every financial market and allow large and small investors to build institutional-caliber portfolios. Yet, their management fees are significantly lower than those typical of mutual funds. High levels of transparency in ETFs for holdings and investment strategy help investors evaluate an ETF's potential returns and risks. This book covers the evolution of ETFs as products and in their uses in investment strategies. It details how ETFs work, their unique investment and trading features, their regulatory structure, how they are used in tactical and strategic portfolio management in a broad range of asset classes, and how to evaluate them individually.
