What does it take to come back to life? For Jessa-Lynn Morton, the question is not an abstract one. In the wake of her father's suicide, Jessa has stepped up to manage his failing taxidermy business while the rest of the Morton family crumbles. Her mother starts sneaking into the taxidermy shop to make provocative animal art, while her brother, Milo, withdraws. And Brynn, Milo's wife—and the only person Jessa's ever been in love with—walks out without a word. It's not until the Mortons reach a tipping point that a string of unexpected incidents begins to open up surprising possibilities and second chances. But will they be enough to salvage this family, to help them find their way back to one another? Kristen Arnett's breakout bestseller is a darkly funny family portrait; a peculiar, bighearted look at love and loss and the ways we live through them together. Many people think eschatology refers to events occurring at the end of history. In this book, two scholars with expertise in biblical eschatology argue that God's kingdom breaking into this world through Jesus Christ has inaugurated a new creation, a reality that should shape pastoral leadership and be reflected in the life and ministry of the church. Brief and accessibly written, this book articulates the practical implications of G. K. Beale's New Testament Biblical Theology and features an introductory chapter by Beale. Each chapter concludes with practical suggestions and a list of books for further study. NEW YORK TIMES BESTSELLER "I come from a family forged by tragedies and bound by a remarkable, unbreakable love," Hunter Biden writes in this deeply moving and "unflinchingly honest" (Entertainment Weekly) memoir of addiction, loss, and survival. When he was two years old, Hunter Biden was badly injured in a car accident that killed his mother and baby sister. In 2015, he suffered the devastating loss of his beloved big brother, Beau, who died of brain cancer at the age of forty-six. These hardships were compounded by the collapse of his marriage and a years-long battle with drug and alcohol addiction. In Beautiful Things—"an astonishingly candid and brave book about loss, human frailty, wayward souls, and hard-fought redemption" (Dave Eggers, New York Times bestselling author)—Hunter recounts his descent into substance abuse and his tortuous path to sobriety. The story ends with where Hunter is today—a sober married man with a new baby, finally able to appreciate the beautiful things in life. The New Orleans mayor who removed the Confederate statues confronts the racism that shapes us and argues for white America to reckon with its past. A passionate, personal, urgent book from the man who sparked a national debate. "There is a difference between remembrance of history and reverence for it." When Mitch Landrieu addressed the people of New Orleans in May 2017 about his decision to take down four Confederate monuments, including the statue of Robert E. Lee, he struck a nerve nationally, and his speech has now been heard or seen by millions across the country. In his first book, Mayor Landrieu discusses his personal journey on race as well as the path he took to making the decision to remove the monuments, tackles the broader history of slavery, race and institutional inequities that still bedevil America, and traces his personal relationship to this history. His father, as state legislator and mayor, was a huge force in the integration of New Orleans in the 1960s and 1970s. Landrieu grew up with a progressive education in one of the nation's most racially divided cities, but even he had to relearn Southern history as it really happened. Equal parts unblinking memoir, history, and prescription for finally confronting America's most painful legacy, In the Shadow of Statues contributes strongly to the national conversation about race in the age of Donald Trump, at a time when racism is resurgent with seemingly tacit approval from the highest levels of government and when too many Americans have a misplaced nostalgia for a time and place that never existed. New York Times Bestseller. "A superb book. . . . [Lewis] makes Silicon Valley as thrilling and intelligible as he made Wall Street in his best-selling Liar's Poker."—Time In the weird glow of the dying millennium, Michael Lewis set out on a safari through Silicon Valley to find the world's most important technology entrepreneur. He found this in Jim Clark, a man whose achievements include the founding of three separate billion-dollar companies. Lewis also found much more, and the result—the best-selling book The New New Thing—is an ingeniously conceived history of the Internet revolution. A collection of succinct articles originally written for newspaper publication. At less than 500 words each, the goal is to inform, educate, challenge, inspire, and motivate readers via theology, current events, history, politics, philosophy, arts, and literature. All Things New presents a study of Schleiermacher's important but often neglected Christian Ethics. Brandt argues that understanding Schleiermacher's Reformed and community-based ethics is essential for fully grasping his theology. By placing Schleiermacher's ethical thought within the context of his life, Brandt illuminates the correspondence between the main themes of the Berlin theologian's comprehensive ethics and his life as pastor, professor, and political reformer. Newly repackaged, Making All Things New is an eloquent and simple explanation of the spiritual life from Henri J.M. Nouwen, author of Letters to Marc About Jesus and A Letter of Consolation and one of the best-loved spiritual writers of the twentieth century. Jessa Gray has always felt broken inside; after a severe accident leaves her damaged on the outside, she can no longer pretend she's okay. Relevant, relatable and uplifting, ALL THINGS NEW celebrates the transforming power of hope. This Youth Group Edition contains discussion questions suitable for middle school and high school church youth groups New Historical Novel from 7-Time Christy Award Winner! In the aftermath of the Civil War, Josephine Weatherly and her mother, Eugenia, struggle to pick up the pieces of their lives when they return to their Virginia plantation. But the bitter realities of life after the war cannot be denied: their home and land are but shells of their previous grandeur; death has claimed her father and brother; and her remaining brother, Daniel, has returned home bitter and broken. The privileged childhood Josephine enjoyed now seems like a long-ago dream. And the God who failed to answer any of her prayers during the war is lost to her as well. Josephine soon realizes that life is now a matter of daily survival--and recognizes that Lizzie, as one of the few remaining servants, is the one she must rely on to teach her all she needs to know. Josephine's mother, too, vows to rebuild White Oak...but a bitter hatred fuels her. With skill and emotion, Lynn Austin brings to life the difficult years of the Reconstruction era by interweaving the stories of three women--daughter, mother, and freed slave--in a riveting tale. The spirit of our times can appear to be one of joyless urgency. As a culture we have become less interested in the exploration of the glorious mind, and more interested in creating and mastering technologies that will yield material well-being. But while cultural pessimism is always fashionable, there is still much to give us hope. In The Givenness of Things, the incomparable Marilynne Robinson delivers an impassioned critique of our contemporary society while arguing that reverence must be given to who we are and what we are: creatures of singular interest and value, despite our errors and deprecations. Robinson has plumbed the depths of the human spirit in her novels, including the National Book Critics Circle Award-winning Lila and the Pulitzer Prize-winning Gilead, and in her new essay collection she trains her incisive mind on our modern predicament and the mysteries of faith. These seventeen essays examine the ideas that have inspired and provoked one of our finest writers throughout her life. Whether she is investigating how the work of the great thinkers of the past, Calvin, Locke, Bonhoeffer--and Shakespeare--can infuse our lives, or calling attention to the rise of the self-declared elite in American religious and political life, Robinson's peerless prose and boundless humanity are on display. Exquisite and bold, The Givenness of Things is a necessary call for us to find wisdom and guidance in our cultural heritage, and to offer grace to one another. A monumental, genre-defying novel that David Mitchell calls "Michel Faber's second masterpiece," The Book of Strange New Things is a masterwork from a writer in full command of his many talents. It begins with Peter, a devoted man of faith, as he is called to the mission of a lifetime, one that takes him galaxies away from his wife, Bea. Peter becomes immersed in the mysteries of an astonishing new environment, overseen by an enigmatic corporation known only as USIC. His work introduces him to a seemingly friendly native population struggling with a dangerous illness and hungry for Peter's teachings—his Bible is their “book of strange new things.” But Peter is rattled when Bea’s letters from home become increasingly desperate: typhoons and earthquakes are devastating whole countries, and governments are crumbling. Bea’s faith, once the guiding light of their lives, begins to falter. Suddenly, a separation measured by an otherworldly distance, and defined both by one newly discovered world and another in a state of collapse, is threatened by an ever-widening gulf that is much less quantifiable. While Peter is reconciling the needs of his congregation with the desires of his strange employer, Bea is struggling for survival. Their trials lay bare a profound meditation on faith, love tested beyond endurance, and our responsibility to those closest to us. Marked by the same bravura storytelling and precise language that made The Crimson Petal and the White such an international success, The Book of Strange New Things is extraordinary, mesmerizing, and replete with emotional complexity and genuine pathos. Shortlisted for the 2022 Booker Prize "A hypnotic and electrifying Irish tale that transcends country, transcends time." —Lily King, New York Times bestselling author of Writers & Lovers Small Things Like These is award-winning author Claire Keegan's landmark new novel, a tale of one man's courage and a remarkable portrait of love and family It is 1985 in a small Irish town. During the weeks leading up to Christmas, Bill Furlong, a coal merchant and family man faces into his busiest season. Early one morning, while delivering an order to the local convent, Bill makes a discovery which forces him to confront both his past and the implicit silences of a town controlled by the church. Already an international bestseller, Small Things Like These is a deeply affecting story of hope, quiet heroism, and empathy from one of our most critically lauded and iconic writers. "Robert MacFarlane has written that language does not just register experience, it produces it. Our religious language in particular informs and shapes our understanding of God, our sense of self, and the way we make sense of our challenging path back to loving Heavenly Parents. Unfortunately, to an extent we may not realize, our religious vocabulary has been shaped by prior generations whose creeds, in Joseph Smith's words, have filled the world with confusion. "I make all things new," proclaimed the Lord. Regrettably, many are still mired in the past, in ways we have not recognized. In this book, Fiona and Terryl Givens trace the roots of our religious vocabulary, explore how a flawed inheritance compounds the wounds and challenges of a life devoted to discipleship, and suggest ways of reformulating our language in more healthy ways all in the hope that, as B. H. Roberts urged, we may all cooperate in the works of the Spirit to find a truer expression of a gospel restored."-- About The Book The poems in this book are a reflection of the writer hearts cry to know the lover of her soul JESUS, her God and her Redeemer in an more intimate and personal way. For many readers of the Bible, the book of Revelation is a riddle that fascinates and frustrates. In this NSBT volume, Brian Tabb stresses the importance of the canonical context of the book of Revelation and argues that it presents itself as the climax of biblical prophecy, showing how Old Testament prophecies and patterns find their consummation in the present and future reign of Jesus Christ. Wedding biblical texts to contemporary experiences, this book offers thoughts for reflections, prayer, spiritual reading and preaching during Advent and Christmas and into the New Year. Cars break down. Buildings fall into disrepair. Personal items deteriorate. Yet today's researchers are exploiting newly understood properties of matter to program materials that physically sense, adapt, and fall together instead of apart. These materials open new directions for industrial innovation and challenge us to rethink the way we build and collaborate with our environment. Things Fall Together is a provocative guide to this emerging, often mind-bending reality, presenting a bold vision for harnessing the intelligence embedded in the material world. Drawing on his pioneering work on self-assembly and programmable material technologies, Skylar Tibbits lays out the core, frequently counterintuitive ideas and strategies that animate this new approach to design and innovation. From furniture that builds itself to shoes printed flat that jump into shape to islands that grow themselves, he describes how matter can compute and exhibit behaviors that we typically associate with biological organisms, and challenges our fundamental assumptions about what physical materials can do and how we can interact with them. Intelligent products today often rely on electronics, batteries, and complicated mechanisms. Tibbits offers a different approach, showing how we can design simple and elegant material intelligence that may one day animate and improve itself—and along the way help us build a more sustainable future. Compelling and beautifully designed, Things Fall Together provides an insider's perspective on the materials revolution that lies ahead, revealing the spectacular possibilities for designing active materials that can self-assemble, collaborate, and one day even evolve and design on their own. Most Christians miss the ultimate hope for their future because their views of heaven are vague, religious . . . and, frankly, boring. Hope begins when we understand that for the believer, nothing is lost. Heaven is not an endless life of harp strumming and worship singing in the clouds. Rather, the life we long for – the paradise Adam and Eve knew – is precisely the life that is coming to us. And that life is coming soon. In this five-session study, John Eldredge explores the revolutionary idea that according to the Bible, heaven is not our eternal home – the New Earth is. Jesus said the next chapter of our story begins with “the renewal of all things” (Matthew 19:28), by which he meant the earth we love, ourselves, and all the things that make for a rich life: music, art, food, and laughter. God's promise is that everything shall be renewed “when the world is made new.” Part devotional, part adventure story, part field manual, this study will help you see the glorious future coming to you and provide “hope as an anchor for the soul, firm and secure” (Hebrews 6:19). Ideal for individual or group use, this guide includes personal reflection questions, targeted excerpts from All Things New, a Big Ideas overview, small-group discussion questions, and group exercises. A leader's guide is also included for those facilitating a group. Sessions include: The Hope of

Renewal Creation Made New Your Story Told Rightly What We'll Do in the New Earth The Power of Our Hope Designed for use with the All Things New Video Study (9780310087656). Sexuality was a part of God's good creation from the beginning. But with sin came a world filled with sexual brokenness. Thankfully, God is always in the business of restoration. This book offers hope for both the sexually immoral and the sexually victimized, pointing us all to the grace of Jesus Christ, who mercifully intervenes each moment in our lifelong journey toward renewal. Author David Powlison casts a vision for the key to deep transformation, better than anything the world has to offer—not just fresh resolve, not just flimsy forgiveness, not just simple formulas, but true, lasting mercy from God, who is making all things new. Written with grace and sensitivity, this collection includes 14 essays that focus on the themes of healing, peace, and reconciliation--topics as timely today as they have ever been. All Things New is not just another book on Bible prophecy. Are we the terminal generation? Are we the generation of mankind that will see the fulfillment of its prophecies? This book answers those questions. The book of Revelation needs to be engaged, more now than in any era of human history. However, many recent books on the subject of Revelation take a much too scholarly approach to a book that was written to be understood by the common man. All Things New is a verse-by-verse commentary/guide for the Christian or non-Christian reader who may simply want to know what the book of Revelation is all about and what its significance is for us today. Included are definitions of the basic terms related to the Church and Christianity that a non-believer might not understand but are necessary for a clear, comprehensive understanding of Revelation. This book is not just about scary beasts, incomprehensible images, and mind-boggling catastrophes and judgments. It's also a book of vindication for the people of God, a demonstration of God's eternal justice, and most importantly, a book of hope for a world that seems to have lost its way. There are storm clouds on the horizon, and a cold night of despair will follow, but the night is never so cold as just before the dawn. May everyone who reads this book find joy, peace, and tranquil hope for the future in the person of Jesus Christ. A new day is coming, and a new world will dawn in which God will indeed make All Things New. The same is true of encounters made with Flavel's writings, as in All Things Made New. Flavel spent almost his entire ministry in a busy town serving working people. He believed that the gospel impacts and shapes every thought, every feeling, every ambition, emotion, desire, success, tragedy and joy. Christ makes all things new for the believer, and teaches us to follow him with confidence, until that day when he truly renews all things. To read Flavel is to catch and to be changed by the same vision. Selected and Edited by Lewis Allen. Things New and Strange chronicles a research quest undertaken by G. Wayne Clough, the first secretary of the Smithsonian Institution born in the South. Soon after retiring from the Smithsonian, Clough decided to see what the Smithsonian collections could tell him about South Georgia, where he had spent most of his childhood in the 1940s and 1950s. The investigations that followed, which began as something of a quixotic scavenger hunt, expanded as Clough discovered that the collections had many more objects and documents from South Georgia than he had imagined. These objects illustrate important aspects of southern culture and history and also inspire reflections about how South Georgia has changed over time. Clough's discoveries—animal, plant, fossil, and rock specimens, along with cultural artifacts and works of art—not only serve as a springboard for reflections about the region and its history, they also bring Clough's own memories of his boyhood in Douglas, Georgia, back to life. Clough interweaves memories of his own experiences, such as hair-raising escapes from poisonous snakes and selling boiled peanuts for a nickel a bag at the annual auction of the tobacco crop, with anecdotes from family lore, which launches an exploration of his forebears and their place in South Georgia history. In following his engaging and personal narrative, we learn how nonspecialists can use museum archives and how family, community, and natural history are intertwined. New York Times bestselling author John Eldredge offers readers a breathtaking look into God's promise for a new heaven and a new earth. This revolutionary book about our future is based on the simple idea that, according to the Bible, heaven is not our eternal home--the New Earth is. As Jesus says in the gospel of Matthew, the next chapter of our story begins with "the renewal of all things," by which he means the earth we love in all its beauty, our own selves, and the things that make for a rich life: music, art, food, laughter and all that we hold dear. Everything shall be renewed "when the world is made new." More than anything else, how you envision your future shapes your current experience. If you knew that God was going to restore your life and everything you love any day; if you believed a great and glorious goodness was coming to you--not in a vague heaven but right here on this earth--you would have a hope to see you through anything, an anchor for your soul, "an unbreakable spiritual lifeline, reaching past all appearances right to the very presence of God" (Hebrews 6:19). Most Christians (most people for that matter) fail to look forward to their future because their view of heaven is vague, religious, and frankly boring. Hope begins when we understand that for the believer nothing is lost. Heaven is not a life in the clouds; it is not endless harp-strumming or worship-singing. Rather, the life we long for, the paradise Adam and Eve knew, is precisely the life that is coming to us. And that life is coming soon. This book presents a fun, basic overview of the End Times for small groups, discipleship communities, or personal Bible study. It is a "blue collar" big picture of God's prophetic future. Not every family is the perfect model of Catholic family life. Some of us approach parenting still wounded by childhood experiences that were less than ideal. When we start our own families, at best we feel a bit unprepared, and at worst we feel paralyzed with fear that we will repeat our parents' dysfunctional, abusive behaviors. In All Things New, Erin McCole Cupp draws on her own and others' experiences to discuss how to develop a joyful family life when our own experience of being parented was damaging. Erin wrote this book for moms and dads who want to parent better than they themselves were parented. Drawing on the Holy Family as the model of family life, and distilling practical lessons from the Two Greatest Commandments and the Beatitudes, All Things New shows readers that, while change isn't easy, God has given us all the ingredients we need to create a holy, joyful family. ABOUT THE AUTHOR Erin McCole Cupp is a wife, mother, and lay Dominican. She cohosts the monthly YouTube series Sabbath Rest Book Talk and writes the monthly "Adventures of a Rosary Family" column at CatholicMom.com. Get to know Erin and her books at erinmccolecupp.com. For both Maximus the Confessor (c. 580-662) and Jurgen Moltmann (b. 1926), understanding what it means to be human springs from a contemplative vision of God. This comparative study explores surprising parallels between the theological anthropology of the seventh-century Byzantine monk and the contemporary German Protestant. Bingaman argues that Maximus and Moltmann root their understanding of the human calling in their Trinitarian and christological reflection, in contrast to many modern theologies that tend to devise an account of human being first, and then try to find ways in which Christ and the Trinity are somehow relevant to this human being. In this constructive work, Bingaman demonstrates the intrinsic connection between Maximus' and Moltmann's views of human being, Christ and the Trinity, the church, and the human calling in creation. Illustrating the richness of these ancient and postmodern theologies in conversation, All Things New lays out future trajectories in theological anthropology, patristic ressourcement, ecologically attuned theology and spirituality, and Orthodox-Protestant dialogue.
